

BURAK TOMRUK

SENIOR SOFTWARE ENGINEER

Senior Software Engineer with **6+ years of experience as a full-stack developer with a frontend focus**, building scalable production applications across media, enterprise, banking, and AI platforms. Specialized in **React, TypeScript and Next.js**, frontend architecture, performance optimization, testing, and observability. Experienced in **technical ownership, mentoring developers, and improving engineering practices**, while delivering reliable products used at scale.

EDUCATION

10.2022	Technical University of Munich (TUM)	Munich, Germany
10.2019	Master of Science (MSc) - Computer Science	
06.2018	Bogazici University	Istanbul, Turkey
09.2013	Bachelor of Science (BSc) - Computer Engineering	

WORK EXPERIENCE

Present	SES SATELLITES	Munich, Germany
02.2023	Senior Software Engineer	
	- Built and evolved the HD+ Connected TV app with React, TypeScript, HbbTV, Storybook, NestJS and Zustand, contributing to ~30% higher engagement. Mentored developers and shaped reusable frontend architecture, state-management, and UI patterns using Zustand and Tailwind, with automated testing through Jest and Playwright. - Improved production reliability through Sentry and optimized Azure DevOps CI/CD pipelines for scalable, maintainable delivery.	

Projects: HD+ Application

10.2022	VALTECH	Munich, Germany
04.2021	Software Engineer	
	- Delivered scalable full-stack solutions for enterprise clients using React, Next.js, Node.js and Java across high-traffic applications. - Contributed to the design and implementation of backend and data solutions using Spring, PostgreSQL and Elasticsearch, improving query efficiency and search performance.	

Projects: BMG, Heinemann, Stihl

04.2021	SIEMENS	Munich, Germany
10.2020	Software Engineer	
	- Optimized AI-Siemens web platform using Gatsby.js, React and GraphQL, reducing page-load time by ~20% and improving user experience. - Engineered standalone MLHub encryption app, securing sensitive data through custom protocols and ensuring enterprise compliance.	

Projects: Web applications for AI-Siemens and MLHub UI

09.2019	COMMENCIS	Istanbul, Turkey
08.2018	Software Engineer	
	- Contributed to Turkey's first React Native banking app for Fibabank using React Native, TypeScript and Redux, serving 10k+ daily users. - Improved application quality through end-to-end testing, enabling earlier defect detection across product and engineering workflows.	

Projects: Fibabank's Mobile and Web Application

TECHNICAL SKILLS

JavaScript / TypeScript

React / React Native / Gatsby.js / Next.js

Redux / Zustand

HTML / CSS / Sass / Tailwind

Storybook

Webpack

Node.js / Express.js / NestJS

Java / Spring

PostgreSQL / MongoDB / NoSQL

Docker

Git / Gerrit / GitLab CI / Jenkins / Azure DevOps

Detox / Cypress / Playwright / Jest

Sentry / SonarQube

GraphQL

Vue.js

AngularJS / Angular 2+

Python

Elasticsearch

VS Code Extension Development

AI-assisted development: Claude Code / Codex
